English is Fun - with Rahel

The Golden Years

A row of bottles on my shelf
 Causes me to analyze myself.
 One yellow pill I have to pop
 Goes to my heart so it won't stop.
 A little white one that I take
 Goes to my hands so they won't shake.
 The blue ones that I use a lot
 Tell me I'm happy when I'm not.
 The purple pill goes to my brain
 And tells me that I have no pain.
 The capsules tell me not to wheeze
 Or cough or choke or even sneeze...
 The red ones, smallest of them all
 Go to my blood so I won't fall.
 The orange ones, very big and bright
 Prevent my leg cramps in the night.
 Such an array of brilliant pills
 Helping to cure all kinds of ills.
 But what I'd really like to know

IS WHAT TELLS EACH ONE WHERE TO GO!!

More information about our bodies....

Your eyes remain the same size after birth but your nose and ears never stop growing.

A simple, moderately severe sunburn burns the blood vessels extensively.

We are about 1 cm. taller in the mornings than in the evenings.

The strongest muscle in the body is the human tongue.

The hardest bone in the body is the jaw bone.
